

February 25th 2019

whom it may concern:

I am pleased to write this letter of recommendation for B.A. Construction and Restoration Inc. I have completed a number of successful project with B.A. over the last few years as a Project Coordinator while working at the City of Mississauga from 2007 to 2018 as I am currently a Project Manager Utilities at UTM. Some of these projects include the following:

Project: Derry House Basement Waterproofing (Heritage Building)

Project: Benares Estate Heritage Barn Repairs

We have worked closely with their Project Manager, Paul Seider, and intend on continuing the use of B.A.'s services in the future. Mr. Seider effectively communicates via both email and phone to provide project status updates and is diligent about communicating when critical stages of the work are expected to occur. From our past experience with Mr. Seider, our observation is that he works towards ensuring projects are kept within or below budget whenever possible.

In general, we have been satisfied with the construction efforts by Mr. Seider and the staff at B.A. Construction and Restoration Inc.

Should you have any questions or concerns, please do not hesitate to contact the undersigned.

Sincerely,

Randy Seto, PMP, LEED GA
Project Manager, Utilities
Facilities Management & Planning
University of Toronto Mississauga
