To Whom It May Concern

BA Construction completed the exterior masonry restoration at St Thomas Aquinas Catholic School in 2008 a project where Jass Construction was the General contractor. They showed detail, and versatility in a variety of Heritage Restoration techniques including re-pointing, retrofit anchoring, colour matching, as well as mortar repair.

In addition, BA showed good managerial acumen in coordinating their subcontractors as well as their suppliers and cooperated in meeting the deadline for this project.

I would not hesitate to recommend BA Restoration or work with them in the future.

Yours truly,

T. A. Jezovit
