

Re: Recommendation Letter

March 29, 2016

This is to certify that B.A. Construction and Restoration inc. completed exterior building repairs at St. Clare school for the TCDSB within the last 3 years. The project was valued at \$250,000 and included masonry replacement, though wall flashing repairs as well as sealant replacement work. The work was done in a clean and timely manner and we would recommend B.A. for future projects as they showed expertise and understanding of working within a strict deadline.

Yours truly;

Pancon Engineering Limited

Jacob Farhadian, P.Eng.
